

Direct Technologies Business Continuity Plan Summary

Direct Technologies has a Business Continuity Plan (BCP) in place to ensure that it is able to continue with its normal day to day operations in the event of a breakdown in systems, disablement of building/office and/or a temporary or permanent loss of power, and loss of resources. We plan to recover quickly and resume business operations as quickly as possible given the scope and severity of the significant business disruption.

Our BCP addresses data back-up and recovery, financial and operational assessments, alternative communications with customers, employees and regulators, alternate physical location of employees, regulatory reporting, Critical Operational Systems Provided by Prime Broker/Settlement and Clearing Agent/Custodians/IT Provider as well as protecting the firm's books and records. Whilst the severity of the disruption can vary from minimal to severe, we plan to continue business as quickly as possible and will update you through our website: <http://direct-technologies.ae/>

DT has appointed Mr. Davies Jeff (CEO) as a prime emergency contact person:

Phone: +971503242198

Email: direct@direct-technologies.ae

Whenever requested by third parties, DT will share a copy of its BCP with investors or customers at point of investment or upon request. If you have any questions about our Business Continuity Plan you can contact us on: +971503242198.
